SKIN CARE STUDIO

Freckle Enhancement/Beauty Mark Tattoo

How to prepare for your appointment:

- Do not consume alcohol 24 hours before your appointment
- Do not use Retin A skincare products close to the area 6 weeks prior to your procedure
- Do not use AHA skin products around the area for 4 week prior
- Avoid chemical peels close to the area 4 weeks prior
- Do not get hair removal or bleaching treatments less than two weeks before your procedure

Time frame: approximately 1 hour

How long does Freckle enhancement last?

Approximately 1-3 years. Skin type and lifestyle can effect the longevity of your cosmetic tattoo - we can not guarantee specific results.

Contraindications: Please consult with your artist first if any of the below apply:

Currently on Accutane
Currently taking Antabuse
Have an artificial heart valve
Autoimmune conditions
Taking blood thinning medication
Bruise/bleed easily
Pregnant or breastfeeding
Cancer
Chemical peels
Diabetes (uncontrolled)
Epilepsy
Hepatitis
High blood pressure
Inflammatory skin condition
Kidney/Liver disease
Lupus
Using Retin A in your skin products
Skin heals DARK with minor injury
Skin has raised scars from minor injury

Vitiligo

AFTERCARE:

Keep area clean with witch hazel twice a day for one week

For the first 1-3 days you should expect:

- Mild pain
- Minor swelling and redness
- Itchiness
- Dry flaking skin

Please avoid these for at least 7 days:

- Makeup on or close to area
- Activities that will make you heavily sweat
- Steamy hot showers or baths

Please avoid for at least two weeks:

- Spray tans
 - Sun beds, direct sunlight
 - Swimming pools, jacuzzis, saunas, chlorinated or salt water
 - Beauty treatments on area
 - Direct shower spray
-
